Journal of Petroleum Science and Engineering, 8 (1993) 339–340
Elsevier Science Publishers B.V., Amsterdam

CONTENTS VOLUME 8 (1992, 1993)

Research papers
Determination of optimal air flow rate in air drilling
M.A. Adewumi and S. Tian (University Park, Pa., USA) 1
Crude oil reserve estimation: An application of the autoregressive integrated moving average (ARIMA) model
B.J. Ayeni (St. Paul, Minn., USA) and R. Pilat (San Pedro, Calif., USA) 13
A control-volume finite-element model for simulating oil–water reservoirs
G. Gottardi (Bologna, Italy) and D. Dall'Olio (Milano, Italy) 29
An experimental investigation of waterflooding of gas condensate reservoirs and their subsequent blowdown
G.D. Henderson, A. Danesh and J.M. Peden (Scotland, UK) 43
An examination of steam-injection processes in horizontal and vertical wells for heavy-oil recovery
S. Bağci and F. Gümrah (Ankara, Turkey) 59

Announcement 73

Research Papers
A model for improved analysis of in-situ combustion tube tests
J.D.M. Belgrave and R.G. Moore (Calgary, Alta., Canada) 75
Analysis of hydrodynamic petroleum entrapment in Sage Creek field, Big Horn Basin, Wyoming
B.F. Towler, J. Varma and H.G. Harris (Laramie, WY, USA) 89
A flow resistance correlation for completed wellbore
H. Asheim, J. Kolnes (Trondheim, Norway) and P. Oudemans (Rijswijk, The Netherlands) 97
A new bitumen recovery technology and its potential application to remediation of oil spills
K.M. Sadeghi, M.-A. Sadeghi (Los Angeles, CA, USA), L.K. Jang (Long Beach, CA, USA), G.V. Chilingarian and T.F. Yen (Los Angeles, CA, USA) 105
Development and validation of a model for predicting the performance of a downhole pneumatic turbine-powered drilling engine
P.W. Johnson (Tuscaloosa, AL, USA) and W.C. Lyons (Socorro, NM, USA) 119
Relief well breakthrough in a North Sea problem well
B.S. Aadnoy and P. Bakoy (Stavanger, Norway) 133
Magnetic resonance relaxation study of preferential wettability effects on displacement efficiency in chalk samples
G.C. Borgia, P. Fantazzini (Bologna, Italy), G. Fanti (Milan, Italy) and E. Mesini (Bologna, Italy) 153

Book Reviews
Compressibility of Sandstones, by R.W. Zimmerman—J. Torabzadeh et al. 161
Horizontal Wells, by R. Aguilera et al.—A.E. Gurevich et al. 162
Petroleum Geology Handbook, by N.A. Eremenko—A.E. Gurevich 163

Announcements 165

Research papers
Modelling the CO_2 Huff 'n' Puff process in solution-gas-drive reservoirs using a black-oil simulator
B.F. Towler and Y.A. Wagle (Laramie, WY, USA) 167
A comparison of oil–water slip velocity models used for production log interpretation
A.D. Hill (Austin, TX, USA) 181
Evaluation of drilling fluid removal by cement slurry from horizontal wells with the use of an accurate mathematical model
D. Nguyen, M. Kagan and S.S. Rahman (Sydney, Australia) 191
Economically improving oil recovery by advanced reservoir management
G.L. Chierici (Bologna, Italy) 205
Improved correlations for predicting the viscosity of light crudes
R. Labedi (Tripoli, Libya) 221

Book Reviews
Well Test Analysis, by M.A. Sabet—F. Samaniego 235
Well Test Analysis for Fractured Reservoir Evaluation, by G. da Prat—F. Samaniego 236
The Three-Dimensional Facies Architecture of Terrigeneous Clastic Sediments and Its Implication for Hydrocarbon Discovery and Recovery, edited by A.D. Miall and N. Tyler—S.J. Mazzullo 237

Research papers
A tribute to Dr. Sullivan S. Marsden 239
Effects of the nonlinear gradient term on the transient pressure solution for a radial flow system
C. Chakrabarty, S.M. Farouq Ali and W.S. Tortike (Edmonton, Alta., Canada) 241
Hyperbolic decline-curve analysis using linear regression
B.F. Towler and S. Bansal (Laramie, WY, USA) 257
ESEM study of authigenic chlorite acid sensitivity in sandstone reservoirs
J.C. Baker, P.J.R. Uwins and I.D.R. Mackinnon (Brisbane, Qld., Australia) 269
Effects of composition, texture and diagenesis on porosity, permeability and oil recovery in a sandstone reservoir
S.B. Coskun, N.C. Wardlaw and B. Haverslew (Calgary, Alta., Canada) 279
The dispersion of a nonuniform slug flowing in a porous medium
R.M. Enick (Morgantown, WV, USA), S.M. Klara and J. Jones (Pittsburgh, PA, USA) 293
Use of silica gel for improving waterflooding performance of bottom-water reservoirs
M.R. Islam (Rapid City, SD, USA) and S.M. Farouq Ali (Edmonton, Alta., Canada) 303
A study on the minimum miscibility pressure for miscible flooding systems
Y. Zuo, J. Chu, S. Ke and T. Guo (Beijing, P.R., China) 315

Short note
A note on flow-period diagnostics in well testing
T.A. Jelmert (Trondheim, Norway) 329

Technical Note
Determination of formation resistivity factors using step increases of temperature
M.M. Oskay, O.A. Orcan and M. Kissami (Dhahran, Saudi Arabia) 333
